

Customer Feedback Analysis Dashboard

Using the dataset, we worked on during the session, and by applying the techniques we practiced in **Power Query Editor** and Excel visualization tools, your task is to build a **Customer Analytics Dashboard** similar to the one shown in the attached image.

Business Requirements:

- 1- Average of overall experience
- 2- Count of Voters per Gender
- 3- Count of Voters per NPS Category
- 4- Average of rating score per feedback and feedback category
- 5- Count of Voters per Source
- 6- Count of Voters per purpose
- 7- Count of Voters per checkout date and Source

slicer of:

- Gender
- Checkout date (Year)
- Purpose
